#### REAL-LIFE CASE SCENARIO

## **Police statement**

An intern treated a patient in ED with injuries from an assault, and was directed by the hospital to provide a police statement detailing the patient's injuries.

As the intern had never prepared a police report, she called us for advice.

We sent her information which included a pro-forma statement, and our medico-legal adviser reviewed the intern's draft statement.

After some suggested amendments were made, her statement was sent to the police.

When the intern was later subpoenaed to give evidence at the trial, we gave her guidance and information on giving evidence in court.
